**MEDIA ALERT: TRAFFIC ADVISORY**  
**Traffic Configuration at LA 18 Changes**

ELMWOOD, La. – This afternoon, traffic was shifted from the existing roadway to the new paved sections on LA18 and US 90. This shift is part of the new traffic configuration phase. Motorists should be aware of new posted signs and road markings.

Below is a link to view a map of the new traffic configuration.

The Huey P. Long Bridge Widening Project is a TIMED (Transportation Infrastructure Model for Economic Development) Program project. The TIMED Program was created by Act 16 of the 1989 Louisiana Legislature, was voted for by the people and is the single largest transportation program in state history. The \$5.2 billion improvement program includes widening 536 miles of state highways, new construction or improvements to three major bridges projects and the improvements to both the Port of New Orleans and the Louis Armstrong International Airport. The Program is designed to enhance economic development in Louisiana through an investment in transportation projects.

As one of 16 TIMED projects, the completed Huey P. Long Bridge Widening Project will include three 11-foot lanes in each direction, along with new inside and outside shoulders across the bridge. The project also will include construction of new roadway approaches that will provide signalized
